

September 8, 2026 – Superintendent's Report

ADMINISTRATIVE UPDATE:

One bid was received for the Water Main Replacement Project, which includes E 46th Street, Glicks at 42nd Street, and Roses of Lawrence neighborhoods. The bid was opened and read allowed in the LGC Public Assembly Room on August 27, 2026. The Utility is seeking approval of the Notice of Award (NOA) to Miller Pipeline in the amount of \$3,524,907.60.

The final design for the Fort Benjamin Harrison Well 7R Installation Project has been completed by Egis BLN USA, Inc. The project is anticipated to be advertised in September of 2026. The Utility is currently working with the engineer to finalize the project schedule.

The Lawrence 46th and Post (Lift Station 26 Sewer Basin) Inflow and Infiltration (I&I) Removal Project remains on schedule. We will keep the board updated on the project as it progresses.

The Utility has reviewed and recommends approval of the one sanitary sewer adjustment on the agenda for this evening.

Account Adjustments:

6312 Sandwell Court – property owner is requesting a sanitary sewer adjustment for \$1,086.83 due to a service line leak. We recommend approval. (This adjustment is for a three-month period.)
