

March 10, 2026 – Superintendent’s Report

ADMINISTRATIVE UPDATE:

The Council appointed Mr. Greg Bright to the Utility Service Board at their March 2, 2026, meeting. We would like to welcome Mr. Bright to the Board.

The Utility is seeking approval of Task Order 6 – Wellhead 7 Easement Stake, under the terms of the agreement between the Utility Service Board and Egis BLN USA, Inc. dated October 25, 2022, for a Not to Exceed amount of \$2,305.00. This will be for additional survey staking in the Fort Harrison Well Field around the new well 7-R site.

The Fort Harrison Collection System Capacity Improvements PH III Project is scheduled to be completed by April 24, 2026. Most of the work remaining is site restoration work such as final dirt grading and seeding of the disturbed sites along with an asphalt road patch once the asphalt plants reopen for the year.

The 71st Street Lift Station Basin I/I (inflow and infiltration) Removal Project is scheduled to be completed in early spring of this year. The contractor’s tentative schedule for paving the road cuts for the project is later this month on March 25th & 26th. They also have yard restorations to perform prior to final completion.

Account Adjustments:

12614 Bearsdale Drive - property owner is requesting a sanitary sewer adjustment for \$350.82 due to a slab leak. We recommend approval.

4620 Cotton Avenue - property owner is requesting a sanitary sewer adjustment for \$560.49 due to a service line leak. We recommend approval.
