

SUPERHERO KIDS PROTECT AND CONSERVE WATER

Focus on simple, everyday actions kids can take to protect and conserve water. Picking up litter and not feeding waterfowl are just a few activities kids can do. For info about these and other age-appropriate actions, visit indiana.clearchoicescleanwater.org and head over to the Kids Pledge page. #children #water

Want to know an easy way to get your child involved in water conservation? Encourage them to turn off the faucet when brushing their teeth. Doing so could save up to 4 gallons of water a minute! #conservewater #teeth

We are looking for Clean Water Superheroes! These are good citizens who follow the law and work to protect water. To become a Clean Water Superhero, simply have your child take the Kids Pledge at indiana.clearchoicescleanwater.org and they will receive an official certificate! #superhero #savewater

A favorite pastime for many kids is to feed ducks and geese, but doing so eventually contributes to unsightly algae blooms. Encourage your child to keep wildlife wild and water clean by not feeding waterfowl. To learn more about the impact of waterfowl on our waterways, and to take the pledge, visit indiana.clearchoicescleanwater.org. #wildlife #cleanwater

Did you know native plants provide food for wildlife like birds and butterflies, as well as filter pollution out of water? Young gardeners can do their part by planting native seeds in their own backyard! Send us a message and we will mail you a native flower seed packet. #nativeplants #purewater

Looking for ways to keep your kids busy and engaged during the winter months? We've got you covered! Click the link <https://bit.ly/3fSEJF8> for a page full of fun and educational activities, like word searches, matching games, videos, and more. #kidsgames #winter
