ACCOUNTANTS' RATE STUDY AND COMPILATION REPORT

April 10, 2017

Utility Service Board 9001 East 59th Street Lawrence, IN 46216

RE: Lawrence (Indiana) Municipal Water Utility (the "Utility")

In connection with the proposed increase in the Utility's schedule of water rates and charges and the proposed project, we have, at your request, compiled this special purpose rate study report.

This special purpose rate study report has been prepared for the purpose of requesting approval of a new schedule of water rates and charges and should not be used for any other purpose.

Further, the pro forma financial information in this report which has not been compiled, reviewed or audited by us, is based upon unaudited financial information for the twelve months ended December 31, 2015 which was compiled by us and assumptions provided by management and their consulting engineers or obtained from other sources. This pro forma financial information is prepared for the purpose of showing the estimated financial effects on the Utility's revenue and revenue requirements of an increase in rates and charges for service and other changes that may be reasonably fixed, known or measured. The actual results achieved may vary from the pro forma information and the variations may be material. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

We have compiled the accompanying comparative schedule of selected financial information arising from cash transactions and the comparative schedule of cash receipts and disbursements as of December 31, 2014 and 2015 and for the periods then ended and supplementary data. We have not audited or reviewed the accompanying historical financial statements and supplementary data, and accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with the cash basis of accounting.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

(Continued on next page)

Utility Service Board Date: April 10, 2017

Page 2

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

The financial statements are presented on the cash basis of accounting used by the Utility which is a comprehensive basis of accounting other than the generally accepted accounting principles. Accordingly, these financial statements are not designed for those who are not informed about such matters.

Management has elected to omit substantially all of the disclosures ordinarily included in financial statements prepared in accordance with the cash basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Utility's assets, liabilities, equity, revenues and expenses. Accordingly, these financial statements are not designed for those who are not informed about such matters.

PRO FORMA ANNUAL REVENUE REQUIREMENTS AND ANNUAL OPERATING RECEIPTS

(Explanation of Adjustments)

SRF

- (1) See "Pro Forma Annual Cash Operating Disbursements," page 4.
- (2) To provide an allowance for Indiana Utility Receipts tax at 1.4% and additional Utility Receipts tax on increased receipts.
- (3) To provide an allowance for payment in lieu of taxes. See calculation on page 5.
- (4) To provide an allowance for repayment of the \$1,500,000 sewer loan over a 12 month period. Assumes \$750,000 in 2017 and 2018.
- (5) To provide an allowance for the repayment of the Utility's outstanding lease obligations.
- (6) To provide an allowance to pay the outstanding bonds.
- (7) To provide an allowance for the average annual debt service on the proposed bonds of 2018. Assumes a \$8,395,000 SRF bond issue amortized over 20 years at 4%.
- (8) To provide an allowance for the average annual debt service on the proposed bonds of 2019. Assumes a \$10,620,000 SRF bond issue amortized over 20 years at 4%.
- (9) To provide an allowance for the funding of a debt service reserve on the proposed bonds over 5 years.
- (10) To provide an allowance for annual capital improvements equal to annual depreciation expense.
- (11) Based on the 2 year historical average for 2014 and 2015 for tap fees, inspection fees, special assessment fees, plan review fees, meter fees, backflow and EDU fees.
- (12) Based on 2015 collections.
- (13) Assumes the receipts generated from minimum users as follows:
 Water usage less than 1,200 gallons monthly charged \$14.95
 Water usage from 1,201 gallons to 2,000 gallons monthly charged \$24.30
- (14) Based on 2015 collections normalized for November and December collections, see page 6.
- (15) Additional receipts from prior phases of the proposed rate increase.

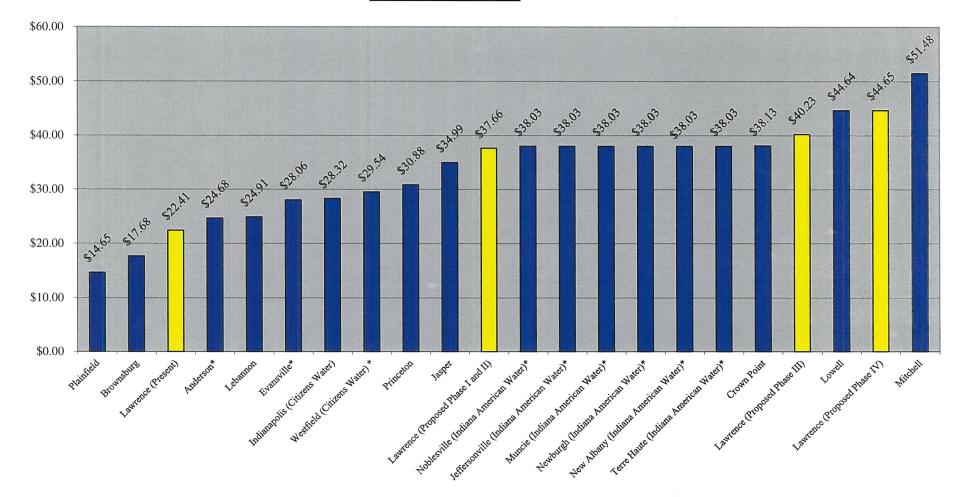

SCHEDULE OF PRESENT WATER RATES AND CHARGES

(Approved July 23, 2008, Ordinance No. 15, 2008)
